

prado

light + motion
with or without ventilation

Lights up when you're there, shuts down when you're gone. Introducing light + motion, the world's first completely invisible motion sensor.

Thibault Renson
Founder & CEO

invisible home technology

Highlighting what really matters and hiding what does not. By developing invisible home solutions, we're helping to create cleaner ceilings, a calming home. So you can come home to an interior where function, form and sustainability are in harmony.
